

WOOD ON WALL

EXCLUSIVE ACOUSTIC & DESIGN PANELS

SPAIN – PORTUGAL

PROVEN CRAFTSMANSHIP

Wood on Wall Spain offers premium, handcrafted wall panels in wood, stone, and metal, made in Helsingborg, Sweden, under the highest industry standards. Each panel is quality-checked to ensure durability and comes with a ten-year material warranty. Designed with sustainability and superior craftsmanship in mind, our panels are perfect for adding style, sound control, and lasting performance to any space.

MATERIALS

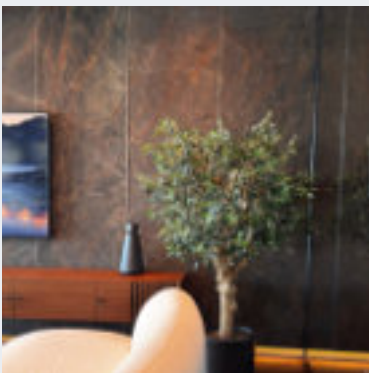

W O O D

Crafted from sustainably managed forests, our wood panels are available in both design and acoustic options. Handcrafted in Sweden with attention to detail, they bring natural warmth and elegance to interiors while supporting eco-friendly practices. With a variety of finishes, these panels are perfect for creating timeless, stylish spaces in residential, commercial, and hospitality projects.

S T O N E

Made from genuine stone our stone acoustic panels are a truly unique product. They provide the beauty and durability of natural stone without the hassle of installing large, heavy slabs. Lightweight, easily transported, and simple to install, these panels adapt seamlessly to any project. Available in design and acoustic options, they bring timeless sophistication to both modern and rustic spaces.

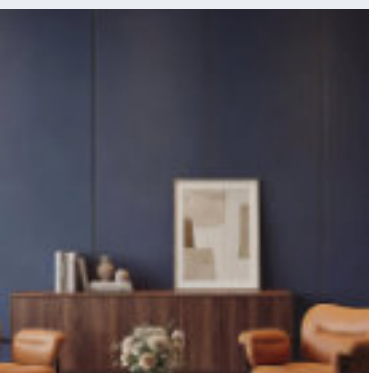

M E T A L

Our metal panels are made from high-quality metals offering a modern touch that transforms any space into a unique statement. Available in both design and acoustic formats, they are perfect for achieving bold, industrial, or minimalist aesthetics. Their sleek finishes make them ideal for creating one-of-a-kind interiors in offices, retail spaces, and homes.

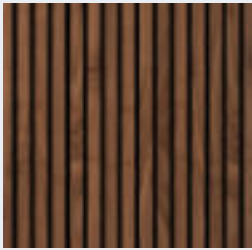

C O L O U R

A timeless palette of super-matte colours that unite function and design. With an exclusive surface that is silky smooth and resistant to scratches, dirt, and fingerprints, our Colour Collection offers the perfect blend of aesthetics and durability. The high-tech FENIX® surface, developed by Italian company Arpa Industriale, adds a modern elegance to every panel, making it ideal for both commercial and private settings. Bring colour to your interior with the Colour Collection.

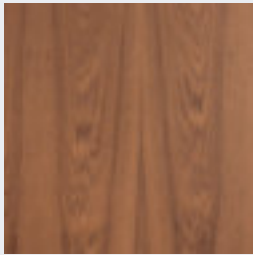

TYPES OF PANELS

ACOUSTIC

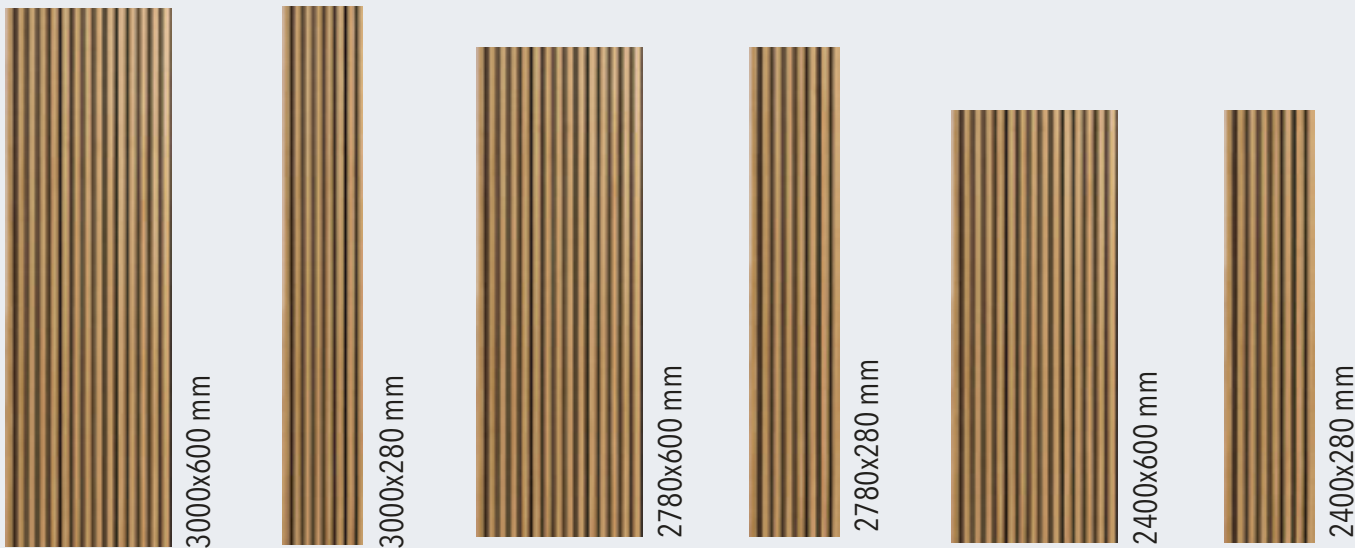

Engineered for both style and functionality, our acoustic panels reduce noise and improve sound quality while enhancing the aesthetic of any space. Ideal for homes, offices, and studios seeking a balance of elegance and comfort.

DESIGN

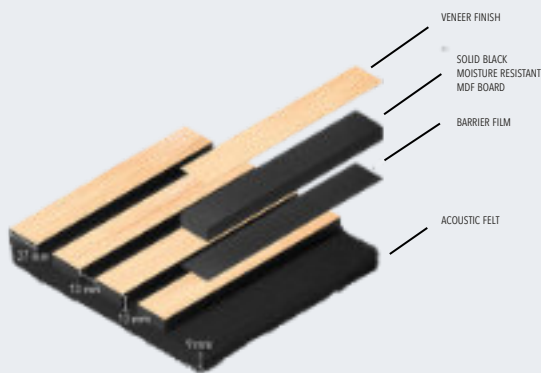

Crafted to elevate interiors, our design panels focus on visual appeal and timeless style. Perfect to mix with acoustic panels or combine materials like wood, stone, metal and colour, they add sophistication and character to walls, furniture, and architectural features.

DIMENSIONS

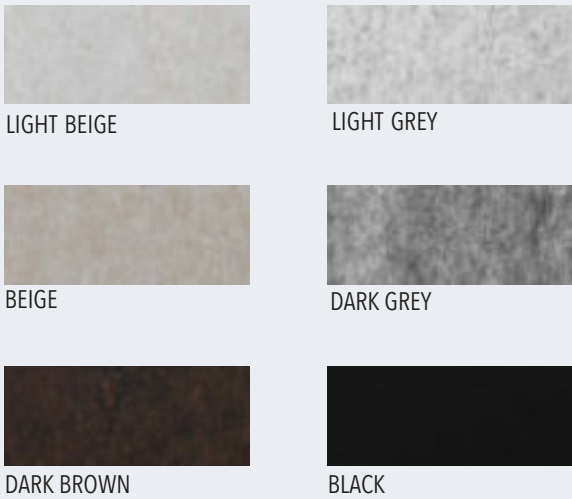

Dimensions for panels in the materials wood, stone, metal and colour.
Design panels are not available in 280mm width.

SPECIFICATIONS ACOUSTIC PANELS

Dimensions:
22x2400x600 mm (1,44 m²)

ACCESSORIES

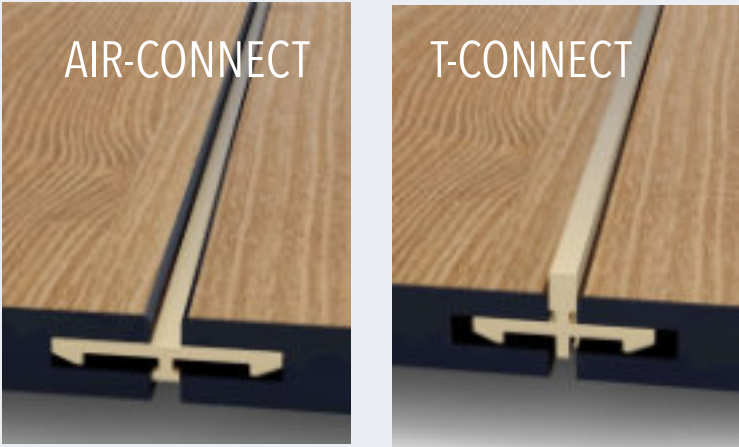

Elevate any space with BaseLed Connect—a sleek aluminum profile that brings stunning ambient light to any wall panel, floor or ceiling. Complete with a 24V LED kit and mounting hardware, it comes in 1208mm & 3017mm lengths across four premium finishes: Stainless Steel, Bronze, Brass, and Matt Black.

Our LED lighting takes your project to another level and is specially developed to provide a perfect light spread. Black and white LED profiles, almost completely invisible when not lit. Fit perfectly between the ribs.

Graph is a stylish hook that has a lightly lined surface, which creates a raw sense of industrial design. The hook is available in matt black, brass and stainless steel.

Transform design panels with a unique, premium system. Engineered for high-end appeal. Available in four anodized finishes.

CONNECT SYSTEM

Transform design panels with a unique, premium system engineered for high-end architectural appeal.

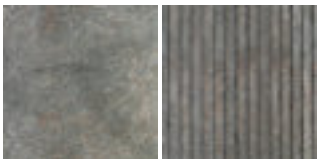

T Connect: Projects 4 mm to turn standard panel joints into a bold visual statement.

Air Connect: Combines a subtle air gap with flexible 4–18 mm joint widths for a flawless, modern fit.
